

Name	% dedicated to Sprint	Days off	Capacity Calculation (Ideal Hours)	Allocated (from Plan Sheet)	Uncommitted hours	Delta Variables	Delta Variable Values
Bryan Tran	100	2	20	11	0.5	Hours per day	5
Kevin Dinh	100	3	15	8	-0.75	Sprint length (in days)	6
Darius Koroni	100	3	15	7	0.25	Focus Factor	0.85
Tien Nguyen	85	3	12.75	5	0.3375		
Garrett Tsumaki	100	3	15	5	2.25	Sprint Planning	2
Jett Sonoda	85	2	17	9	-0.05	Sprint Retrospective	1
Total Capacity in Sprint		16	94.75	45	2.5375	Daily Stand-Up (Total for sprint)	1.5
						Backlog Grooming	1
						Sum Hours	5.5

Note: negative numbers reflect overcommitment/working extra hours

Story Name	Story Description	Story Acceptance Criteria	Story Effort (hours)	Story Owner	Subtask Name	Subtask Description	Subtask Effort (hours)	Assignee F.N.
Authorization High Level Design	As a developer, I want to ensure that the design of this feature will be confirmed by the client to ensure that no wasted time or effort is spent towards developing the system	- Confirm requirements/scope of the feature with the client	15	Darius				
					Read Client Requirements	Read the client requirements email	1	Darius
					Confirm scope of requirements	Meet with client to confirm understanding of requirements	1	Darius
					Plan layout of components	Diagram of components interacting with the current system and milestone 3 components	2	Darius
					Skeleton branch	Create skeleton branch on github and any classes from plan	1	Darius
					Outlined test cases/plan	Create test plans for testing the system during implementation	2	Darius
					Support Authorization Design	Receive instructions from Story Owner	8	Kevin
						Sum Hours	15	
						Sum hours matches pointed hours		
Authentication High Level Design	As a developer, I want to ensure that the design of this feature will be confirmed by the client to ensure that no wasted time or effort is spent towards developing the system	- Confirm requirements/scope of the feature with the client	15	Bryan				
					Read Client Requirements	Read the client requirements email	2	Bryan
					Confirm scope of requirements	Meet with client to confirm understanding of requirements	1	Bryan
					Plan layout of components	Diagram of components interacting with the current system and milestone 3 components	3	Bryan
					Skeleton branch	Create skeleton branch on github and any classes from plan	3	Bryan
					Outlined test cases/plan	Create test plans for testing the system during implementation	2	Bryan
					Support Authorization Design	Receive instructions from Story Owner	5	Tien
						Sum Hours	16	
						Reason for higher than pointed effort: Anticipate to spend more time setting up the branch		
Account Recovery High Level Design	As a developer, I want to ensure that the design of this feature will be confirmed by the client to ensure that no wasted time or effort is spent towards developing the system	- Confirm requirements/scope of the feature with the client - Outline test plan - Plan feature interaction with current/near future system	15	Jett				
					Read Client Requirements	Read the client requirements email	2	Jett
					Confirm scope of requirements	Meet with client to confirm understanding of requirements	1	Jett
					Plan layout of components	Diagram of components interacting with the current system and milestone 3 components	3	Jett
					Skeleton branch	Create skeleton branch on github and any classes from plan	1	Jett
					Outlined test cases/plan	Create test plans for testing the system during implementation	2	Jett
					Support Authorization Design	Receive instructions from Story Owner	5	Garrett

						Sum Hours	14	
						Reason for lower than pointed effort: Anticipated more supporters
