

## Sprint 16 Retrospective

### Sprint 15 Retrospective Action Items:

#### What to work on:

- @ Kevin - Work together with Darius, Bryan, or Garrett twice a week to receive feedback of the direction of the feature progression
- @ Darius - Confirm method signatures with story owners 2 days prior to when an answer is needed to not rush them (give time to think)

### Sprint 16 Retrospective:

#### What went well:

- @ Kevin and Bryan - have been meeting twice (sometimes more) per week for Kevin to receive feedback
- Productivity increased (got 100 hours of work done, compared to previous sprints of 70 hours of work done)
- @ Bryan and Garrett - figured out JWT
  - Received feedback from Vong to get everything sorted out
- Front end structure is done

#### What went wrong:

- Lots of time lost while waiting for answers from Vong
  - Waiting for lecture/office hours

#### What to work on:

- @ Team - Compile questions to ask Vong on March 6 for e2e testing
- @ Jett - Create Vong's version of scrum chart for the past sprints
  - Post to github repo
- @ Team - Compile all questions from Friday's daily meeting and email Vong immediately after instead of waiting for the next class session/office hours
- Sprint 17 Target Percentage:
  - 50% of hours planned (295 hours total)
