

## Sprint 9 Retrospective

What didn't go well:

- Updated the github repository at the last possible minute and incurred penalties
- Lost work due to inexperience with github merge conflicts
- Revisited LLD and restructured code multiple times
- Need more rigorous testing for integrated tests

Action Items:

- @team Submit all deliverables at least 1 hour before deadlines
- @team Review **all** deliverable code prior to submission
- @team Create pull requests after code has been finalized for review

	Action item from last retrospective
	Action item N/A in this sprint

What went well:

- Finished all work
- Received clarification for all features from Client
  - Prepared well with questions going into office hours
- Better understanding of high-level design document
- Account Recovery descope from Milestone 3 = less work

What didn't go well:

- Account Recovery descope = big changes to backlog and project plan

Action Items:

-
